15 February 2016

Dear Parents and Caregivers

The St Emilie’s Fete will be held on Sunday 20\textsuperscript{th} March. This will be the school’s first ever fete and it is a very exciting time for the students and teachers as we start planning for this special event. I will be holding a Kitchen Garden Stall at the fete. Some of the plants that I intend to sell (with help from the students) are herbs and vegies such as, cherry tomatoes, parsley, chives, rocket etc.

Students in Years 4 and 5 will be having some vegie planting sessions planting seedlings in plastic pots and we would really like some parent assistance please. If you are able to assist, please indicate this on the slip below and return to school by **Thursday 18\textsuperscript{th} February**. I will confirm your time and attendance by sending home a confirmation slip. Please meet me in the MPR on the day and time that you have volunteered for. At the conclusion of the planting session the students will return to class to complete a follow up activity about the planting session.

Once the seedlings have been planted we will also need some help with maintaining and nurturing them until the day of the fete. I will also be looking for some volunteers who are able to take on watering tasks. You can let me know your availability when you come in for the planting session.

Yours sincerely

*Kerrie Cogger*
Science Specialist Teacher
