Welcome to Term 3!

In the next few weeks we are consolidating our learning of our “school” topic and creating some amazing portfolio pieces to share with you!

Year 4,5, & 6 classes will also be reflecting on their learning journey in Japanese so far and publishing their progress on Fresh Grade.

As a teacher, I am so excited to see their progress in class and the joy, as they learn new vocabulary and seeing the written language take shape. This grows into meaningful communication and the authentic experience of learning and communicating with a new language.
