

Kindergarten - Water Inquiry Unit

12th October 2017

Dear Families,

To assist us with our **Water Investigations**, we would love each family to please help their child collect one water sample in a clean, clear, recycled water bottle - free of all labels please.

A few examples (but not limited to) of places you may collect your **water sample** from:

- A puddle
- A down pipe
- A swimming pool
- A lake
- A creek
- The sea
- The river
- A pond
- Rain
- A hose
- A fountain
- A tap at home - last resort!

Please **record** where the source of water has come from along with your child's name and return it to class with your child, anytime before Tuesday 24th October 2017 (Week 3).

Please try to help your child to think **outside the box** and find a creative/alternative water source other than your household tap. The more interesting sources, will provide for more interesting class discussions and investigations.

Thank you for your cooperation!

We can't wait to **see and hear** about where the children source their water sample from!

Kind regards,

Mrs Tracey Poinen
