Japanese virtual open night!

Konnichiwa Everyone!

Our classes from Years one to six have been very busy learning about Japanese traditions through art projects for our virtual open night!

I have uploaded a virtual tour of our whole school art and posted it on see saw for all families to see from Monday this week.

I have also added individual posts for classes in year 1, 2 & 3 with photos and more detailed images and explanations for you to enjoy with your children.

Years 4, 5 & 6 have added their own descriptive video of their work completed in pairs and groups with a focus on what they have learnt about distinctive Japanese traditions during the art creation process.

All you have to do is go into Seesaw into your child's grade, (example, 1G) and look at the posts created by myself and your students!

We have had another wonderful term of learning Japanese, please spend a few moments to discover your children's learning opportunities so far!
